STATISTICS OF CLASS I MOTOR CARRIERS, 1942

INTRODUCTORY STATEMENT

As authorized by Section 220 of the Interstate Commerce Act, the Interstate Commerce Commission has required the large common and contract motor carriers subject to its general jurisdiction to file quarterly and annual reports, and in the case of passenger carriers monthly reports are also required. Summaries of the information in the monthly and quarterly reports have been regularly published.

The present summary of annual statistics is the fifth that has been published. The reports have been examined and verified in the Bureau of Motor Carriers and the corrected reports form the basis of the present tabulation. The unusual delay in publication is the result partly of the time required in obtaining corrections from the carriers, partly of the pressure of other work given precedence in the Bureau of Transport Economics and Statistics, and partly of shortage of accounting and clerical personnel.

For reporting and accounting purposes, motor carriers are divided by the Interstate Commerce Commission into classes according to the amount of their annual gross operating revenues as follows: Class I, revenues above \$100,000; Class II, revenues from \$25,000 to \$100,000; and Class III, revenues less than \$25,000. The revenues and other data reported by the carriers relate to their entire operations, including interstate operations, if any. In some cases, the revenues from the latter operations considerably exceed those derived from transportation in interstate commerce.

No data are available with which to estimate the relative importance of Class I carriers in 1942. In 1941, they accounted for 57.32 percent of the gross revenue (estimated in part) of \$1,084,292,235 of intercity and local carriers of property of Classes I, II, and III, and similarly for 79.69 percent of the gross revenues of \$221,612,243 of motor carriers of passengers. Revenues of carriers of both property and passengers were omitted in deriving these percentages.

As may be seen from the table of contents, the Class I carriers have been segregated, for the purposes of the present compilation, into three groups: Carriers of property, carriers of passengers, and carriers of both property and passengers. The first two groups have been subdivided to show returns separately for carriers engaged preponderantly in intercity service and for those engaged preponderantly in local service. The carriers of property engaged preponderantly in intercity service have been segregated into common carriers of general freight, common carriers of commodities other than general freight, and contract carriers, operating owned equipment exclusively or principally. Those carriers of property engaged preponderantly in intercity service operating with owned equipment and with purchased transportation in an amount in excess of 3.75 percent of their total operation and maintenance expense are shown separately. Five percent has been used in previous years. Use of 3.75 percent results from changes in the accounting regulations made by the Commission's order of September 21, 1942, effective October 1, 1942. This order provides that payments for "Purchased Transportation," previously charged in total to "Transportation Expenses," shall be charged to "Drivers' and Helpers' Wages and Bonuses" and "Equipment Rents - Debit," if the services are performed by owner operators or private carriers. If the services are performed by motor carriers holding Federal or State operating authority, the payments shall be charged to the freight revenue account.

In addition to the changes affecting purchased transportation, the Commission's order of September 21, 1942, required that payments to other carriers for performing the reporting carrier's collection and delivery services be charged against revenues and not included, as theretofore, in "Terminal Expenses." Also, a new account, "Local Revenue," was set up, effective with the last quarter of 1942, for reporting revenues from local operations which previously had been included in "Freight Revenue--Common Carrier," and "Freight Revenue--Contract Carrier."

In addition to the summary tables, abstracts are given of selected items of information for 377 individual property carriers and 107 passenger carriers having operating revenues over \$500,000.

There has been some rearrangement of tables for more convenient use and three summary tables (nos. 59, 78, and 94 of the release for 1941) have been omitted as the information they provided is now available in other tables. In order that all tables relating to a group of carriers would cover the same number of carriers, it has been necessary to omit 63 carriers of property, with

total operating revenues of \$32,821,549, and 1 carrier of passengers, with operating revenue of \$672,227. About half of the 63 carriers transported films, wearing apparel, or newspapers, or were oilfield haulers, "driveaway" carriers, or dump truck operators. These carriers were not required to report the weight of the commodities they transported. The remaining carriers filed reports which were either incomplete or not usable in some respect. Of the 63 carriers, 58 were intercity carriers with revenues of \$26,502,208 and 5 were local carriers with revenues of \$6,319,341. Omission of the one carrier of passengers was necessary because of incomplete segregation of its carrier and noncarrier operations.

As shown by Tables 58 and 91, only 758 common carriers and 118 contract carriers of property reported ton-miles of freight carried and only 127 carriers of passengers reported passenger-miles. To permit of useful comparisons, the revenue, expense, number of vehicles, vehicle-miles, tons or passengers carried, and fuel consumed are also given for these carriers.

Attention may be called, particularly in the case of carriers of passengers, to the fact that data as to intercity traffic and operations are also found in the tables for carriers classified as engaged primarily in local service and that, to a less extent, data as to local traffic and operations are also found in the tables for intercity carriers.

The Greyhound Corporation, a holding and management company which owns the majority of the stock of 13 reporting carriers, also conducts motor carrier operations under the name of Eastern Greyhound Lines of New England (New England Region) and as Teche Lines, Inc. (Southern Region). The data included herein pertain only to the operations of these lines, whereas in the statement for 1941 complete data for The Greyhound Corporation were included. The data here shown are based on accounting and statistical records maintained by these operating units.

Geographical Groupings - Class I Motor Carriers

1. New England Region:

Connecticut
Maine
Massachusetts
New Hampshire
Rhode Island
Vermont

4. Southern Region:

Local service	8,604,864	5,294,122	1,172,378	2,683,887	1,437,857	340,495	2,970,247	669,299	342,799	724,975	130,023	1,103,151

1/ This table covers all reporting intercity carriers of property. To permit of significant comparisons of various items of revenue, expense, employees, equipment owned, and operation, later tables exclude such carriers as reported "Purchased transportation" in excess of 3.75 percent of total "Operation and maintenance expenses." Such carriers are covered, however, in a separate series of tables (Nos. 44 to 57). Carriers engaged preponderantly in local service are covered in tables Nos. 59 to 72.

2/ This item does not include drivers of equipment engaged by these carriers to perform "Purchased transportation" service.
3/ Includes duplications on account of tonnage received from connecting Class I motor carriers.

TABLE 2.--SELECTED BALANCE SHEET ITEMS - CLASS I MOTOR CARRIERS OF PROPERTY OPERATING OWNED EQUIPMENT PRINCIPALLY 1/
COMMON CARRIERS OF GENERAL FREIGHT ENGAGED PREPONDERANTLY IN INTERCITY SERVICE
DECEMBER 31, 1942

Investments to and retirements of equipment differ to a minor

1/ This table is restricted to carriers owning all or most of the equipment operated. It excludes carriers which reported expense for "Purchased transportation" in excess of 3.75 percent of total "Operation and maintenance expense."

2/ The amounts shown for additions and betterments to and retirements of equipment differ to a minor extent from those shown on tables 12 and 13. These differences are mainly the result of the fact that the latter tables are confined to complete units of equipment, whereas this table also includes additions and betterments to and retirements of other than complete units.

TABLE 4.--INCOME STATEMENT, CLASS I MOTOR CARRIERS OF PROPERTY OPERATING OWNED EQUIPMENT PRINCIPALLY 1/

1/ This table is restricted to carriers owning all or most of the equipment operated. It excludes carriers which reported expense for "Purchased transportation" in excess of 3.75 percent of total "Operation and maintenance expenses." This table includes vehicles used in local service as well as vehicles used in intercity service.
Maximum carrying capacity is intended to reflect the owner's estimate of the maximum load that can be transported without undue impairment of the vehicle.

Per gallon of fuel	5.17	4.75	4.05	4.46	5.57	5.53	5.66	5.34	5.87	6.26	5.43	4.88
Per quart of lubricating oil	96.1	95.5	86.9	83.7	115.0	114.3	90.3	120.5	109.4	133.9	60.9	52.0

1/ This table is restricted to carriers owning all or most of the equipment operated. It excludes carriers which reported expenses for "Purchased transportation" in excess of 3.75 percent of total "Operation and maintenance expenses."

2/ Includes duplications on account of tonnage received from connecting Class I motor carriers.

3/ Basic figures include expenses of operating vehicles in intercity and in local services; these expenses are not separable. Comparisons of revenue and expense per intercity vehicle-mile are therefore subject to qualification, particularly where the local revenue is a large part of the total revenue.

1/ This table is restricted to carriers owning all or most of the equipment operated. It excludes carriers which reported expense for "Purchased transportation" in excess of 3.75 percent of total "Operation and maintenance expenses."

2/ The amounts shown for additions and betterments to and retirements of equipment differ to a minor extent from those shown on tables 26 and 27. These differences are mainly the result of the fact that the latter tables are confined to complete units of equipment, whereas this table also includes additions and betterments to and retirements of other than complete units.

1/ This table is restricted to carriers owning all or most of the equipment operated. It excludes carriers which reported expense for "Purchased transportation" in excess of 3.75 percent of total "Operation and maintenance expense." This table includes vehicles used in local service as well as vehicles used in intercity service.
Maximum carrying capacity is intended to reflect the owner's estimate of the maximum load that can be transported without undue impairment of the vehicle.

Expense per intercity vehicle-mile 3/	\$0.217	\$0.235	\$0.325	\$0.230	\$0.215	\$0.138	\$0.233	\$0.565	\$0.195	\$0.200	-	\$0.248
Miles per owned intercity vehicle per annum	44,997	34,202	20,197	43,257	31,738	76,507	54,839	23,506	58,882	37,203	-	63,403
Intercity vehicle-miles (owned and leased vehicles):												
Per gallon of fuel	5.12	4.88	4.32	4.29	6.28	6.73	4.84	5.43	7.56	5.92	-	4.29
Per quart of lubricating oil	92.8	95.0	94.4	82.1	120.9	168.2	73.1	84.1	168.1	95.0	-	61.6

1/ This table is restricted to carriers owning all or most of the equipment operated. It excludes carriers which reported expense for "Purchased transportation" in excess of 3.75 percent of total "Operation and maintenance expenses."

2/ Includes duplications on account of tonnage received from connecting Class I motor carriers.

3/ Basic figures include expenses of operating vehicles in intercity and in local services; these expenses are not separable. Comparisons of revenue and expense per intercity vehicle-mile are therefore subject to qualification, particularly where the local revenue is a large part of the total revenue.

TABLE 30.--SELECTED BALANCE SHEET ITEMS - CLASS I MOTOR CARRIERS OF PROPERTY OPERATING OWNED EQUIPMENT PRINCIPALLY 1/

1/ This table is restricted to carriers owning all or most of the equipment operated. It excludes carriers which reported expense for "Purchased transportation" in excess of 3.75 percent of total "Operation and maintenance expenses."

2/ The amounts shown for additions and betterments to and retirements of equipment differ to a minor extent from those shown on tables 40 and 41. These differences are mainly the result of the fact that the latter tables are confined to complete units of equipment, whereas this table also includes additions and betterments to and retirements of other than complete units.

3/ Includes \$4,509, investment in passenger equipment.

4/ Includes \$4,168, reserve for depreciation of passenger equipment.

1/ This table is restricted to carriers owning all or most of the equipment operated. It excludes carriers which reported expense for "Purchased transportation" in excess of 3.75 percent of total "Operation and maintenance expenses." This table includes vehicle used in local service as well as vehicles used in intercity service. Maximum carrying capacity is intended to reflect the owner's estimate of the maximum load that can be transported without undue impairment of the vehicle.

1/ This table is restricted to carriers owning all or most of the equipment operated. It excludes carriers which reported expense for "Purchased transportation" in excess of 3.75 percent of total "Operations and maintenance expense."
2/ This item does not include drivers of equipment engaged by these carriers to perform "Purchased transportation" service.

TABLE 43.--OPERATING STATISTICS, CLASS I MOTOR CARRIERS OF PROPERTY OPERATING OWNED EQUIPMENT PRINCIPALLY 1/
CONTRACT CARRIERS ENGAGED PREPONDERANTLY IN INTERCITY SERVICE
YEAR ENDED DECEMBER 31, 1942

Item	Summaries by districts and regions

Per gallon of fuel	5.06	4.77	4.24	4.22	5.81	6.35	5.59	5.62	5.44	7.16	5.37	4.50
Per quart of lubricating oil	103.2	100.9	87.4	92.6	116.6	123.1	103.6	110.1	136.4	154.5	101.0	56.2

1/ This table is restricted to carriers owning all or most of the equipment operated. It excludes carriers which reported expense for "Purchased transportation" in excess of 3.75 percent of total "Operation and maintenance expenses."

2/ Includes duplications on account of tonnage received from connecting Class I motor carriers.

3/ Basic figures include expense of operating vehicles in intercity and in local services; these expenses are not separable. Comparisons of revenue and expense per intercity vehicle-mile are therefore subject to qualification, particularly where the local revenue is a large part of the total revenue.

TABLE 44.--SELECTED BALANCE SHEET ITEMS - CLASS I MOTOR CARRIERS OF PROPERTY OPERATING WITH OWNED EQUIPMENT AND PURCHASED TRANSPORTATION 1/

1/ This table is restricted to carriers operating with owned equipment and purchased transportation. It includes carriers which reported expense for "Purchased transportation" in excess of 3.75 percent of total "Operation and maintenance expenses." A few of the carriers reported no owned equipment.

2/ The amounts shown for additions and betterments to and retirements of equipment differ to a minor extent from those shown on tables 54 and 55. These differences are mainly the result of the fact that the latter tables are confined to complete units of equipment, whereas this table also includes additions and betterments to and retirements of other than complete units.

TABLE 46.--INCOME STATEMENT, CLASS I MOTOR CARRIERS OF PROPERTY OPERATING WITH OWNED EQUIPMENT AND PURCHASED TRANSPORTATION 1/

1/ This table is restricted to carriers operating with owned equipment and purchased transportation. It includes carriers which reported expense for "Purchased transportation" in excess of 3.75 percent of total "Operation and maintenance expenses." A few of the carriers reported no owned equipment. This table includes vehicles used in local service as well as vehicles used in intercity service. Maximum carrying capacity is intended to reflect the owner's estimate of the maximum load that can be transported without undue impairment of the vehicle.

1/ This table is restricted to carriers operating with owned equipment and purchased transportation. It includes carriers which reported expense for "Purchased transportation" in excess of 3.75 percent of total "Operation and maintenance expenses." A few of the carriers reported no owned equipment.

2/ This item does not include drivers of equipment engaged by these carriers to perform "Purchased transportation" service.

TABLE 57.--OPERATING STATISTICS, CLASS I MOTOR CARRIERS OF PROPERTY OPERATING WITH OWNED EQUIPMENT AND PURCHASED TRANSPORTATION 1/
CARRIERS ENGAGED PREPONDERANTLY IN INTERCITY SERVICE

Per quart of lubricating oil	102.4	110.9	80.3	95.0	122.0	123.2	77.8	84.9	139.0	126.7	92.7	50.5

1/ This table is restricted to carriers operating with owned equipment and purchased transportation. It includes carriers which reported expense for "Purchased transportation" in excess of 3.75 percent of total "Operation and maintenance expenses." A few of the carriers reported no owned equipment.

2/ Includes duplications on account of tonnages received from connecting Class I motor carriers.

3/ Basic figures include expenses of operating vehicles in intercity and in local services; these expenses are not separable. Comparisons of revenue and expense per intercity vehicle-mile are therefore subject to qualification, particularly where the local revenue is a large part of the total revenue.

Average miles per owned vehicle per annum	38,583	33,410	24,955	31,151	38,123	36,791	53,700	46,811	47,374	54,532	124,324	44,419

1/ Includes duplications on account of tonnages received from connecting Class I motor carriers.

2/ In many instances the ton-miles reported were designated as "estimated."

3/ Basic figures include expenses of operating vehicles in intercity and in local services; these expenses are not separable. Comparisons of revenue and expense per intercity vehicle-mile are therefore subject to qualification, particularly where the local revenue is a large part of the total revenue.

4/ Average load is based on both trips with load and trips without load and is derived by dividing revenue ton-miles by intercity vehicle-miles.

5/ Average haul is derived by dividing revenue ton-miles by tons of intercity revenue freight carried.

Total investment in carrier operating property, less reserve for depreciation and amortization.	15,363,813	9,936,685	859,800	4,178,748	4,898,137	141,986	5,285,142	301,820	659,720	426,927	288,458	3,608,217

1/ The amounts shown for additions and betterments to and retirements of equipment differ to a minor extent from those shown on tables 69 and 70. These differences are mainly the result of the fact that the latter tables are confined to complete units of equipment, whereas this table also includes additions and betterments to and retirements of other than complete units.

TABLE 61.--INCOME STATEMENT, CLASS I MOTOR CARRIERS OF PROPERTY
CARRIERS ENGAGED PREPONDERANTLY IN LOCAL SERVICE
YEAR ENDED DECEMBER 31, 1942

Item	Summaries by districts and regions											
	All districts	Eastern district				Southern region	Western district					
		Total Eastern district	New England region	Middle Atlantic region	Central region		Total Western district	Northwestern region	Mid-Western region	Southwestern region	Rocky Mountain region	Pacific region
Number of carriers represented	232	155	18	79	58	4	73	5	12	11	4	41

1/ "A" Regular route--Scheduled service.

"B" Regular route--Nonecheduled service.

"C" Irregular route--Radial service.

"D" Irregular route--Nonradial service.

2/ This item does not include drivers of equipment engaged by these carriers to perform "Purchased transportation" service.

3/ Basic figures include expenses of operating vehicles in intercity service and in local service; these expenses are not separable. Comparisons of revenue and expense per intercity vehicle-mile are therefore subject to qualification, particularly where the local revenue is a large part of the total revenue.

4/ Irregular routes only.

TABLE 75.--ABSTRACT OF SELECTED ITEMS FROM THE ANNUAL REPORTS OF INDIVIDUAL CLASS I MOTOR CARRIERS OF PROPERTY HAVING OPERATING REVENUES OVER \$500,000
CONTRACT CARRIERS ENGAGED PREPONDERANTLY IN INTERCITY SERVICE
YEAR ENDED DECEMBER 31, 1942

Name of carrier	Number of carriers represented	Principal type of service 1/	Miles of regular routes	Total assets (not including intangible property)	Freight revenue from intercity service		Total operating revenue	Expense for purchased transportation		Total expensee (including depreciation and operating taxes and rents)	Net carrier operating income	Net income after income taxes	Average number of intercity trucks and tractors		Intercity vehicle-miles (with load and empty)		Employees 2/		Averages per intercity vehicle-mile	
					Common carrier	Contract carrier		Payable to					Owned	Leased and purchased transportation	Owned vehicles	Leased and purchased transportation vehicles	Average number	Total compensation	Freight revenue (common and contract)	Total expenses

1/ The amounts shown for additions and betterments to and retirements of equipment differ to a minor extent from those shown on tables 87 and 88. These differences are mainly the result of the fact that the latter tables are confined to complete units of equipment, whereas this table also includes additions and betterments to and retirements of other than complete units.

Total investment in carrier operating property, less reserve for depreciation and amortization	13,419,641	10,685,375	911,722	7,631,900	2,141,753	1,944,357	789,909	-	-	74,179	-	715,730

1/ The amounts shown for additions and betterments to and retirements of equipment differ to a minor extent from those shown on tables 102 and 103. These differences are mainly the result of the fact that the latter tables are confined to complete units of equipment, whereas this table also includes additions and betterments to and retirements of other than complete units.

TABLE 94.--INCOME STATEMENT, CLASS I MOTOR CARRIERS OF PASSENGERS
CARRIERS ENGAGED PREPONDERANTLY IN LOCAL OR SUBURBAN SERVICE
YEAR ENDED DECEMBER 31, 1942

Item	Summaries by districts and regions											
	All districts	Eastern district				Southern region	Western district					
		Total Eastern district	New England region	Middle Atlantic region	Central region		Total Western district	Northwestern region	Mid-Western region	Southwestern region	Rocky Mountain region	Pacific region
